Standard Key Lock

Customers Rave about Key Valet Products

- Central Parking System has been purchasing and using Key Valet's locks for over 15 years. These locks have always provided the durability, ease and security to our business. Key Valet has very reasonable prices, prompt shipping coupled with warm and very friendly staff.
Patrick Gachogu
Central Parking System
New York, New York
- We have used several products from Key Valet for over 8 years. They have performed smoothly and efficiently in our Valet parking facilities while providing proper key security for our customers. Our personnel find that using the Key Valet key locks makes retrieving a customer's vehicle a snap and helps minimize the wait times of our exiting customers. We keep a ready supply of key locks on hand at all times.
David W. Carlock
Parking Management, Inc.
Washington D.C.
- The Key Valet product has been a mainstay of the Edison Park Fast operations for many years. We can consistently count on the quality and security these locks provide both us and our customers.

Product Specs

Key Valet has been providing vehicle security for many years. Maintaining product development is a priority we take seriously. Our product line has been designed to accommodate and secure every key/remote that is sold on the market today

As car theft is an ongoing problem in the U.S.A., I would like to take a moment to share the specifics of our theft deterring product line. If the need to protect your vehicle ignition key/remote is a concern, then you should consider our theft deterrents

Theft deterrents virtually eliminates car theft

Maintain or even lower insurance rates

Designed to protect delicate ignition keys/remotes

Minimal investment versus stolen vehicle

Key Valet Locks accommodate all style ignition keys and remotes; including square, computer chip and conventional

Mercedes Style Key Lock

More Intriguing Facts

Keyless Vehicles are securely protected in one of our specially designed key boxes and/or Key FOB Disabler blocking the transponder signal preventing the vehicle from starting

Key Boxes/Key FOB Disabler – Manufactured of a special composite alloy with an added benefit of securing any style ignition key or remote

Open peg board or valet podium security: Lock it and leave it

Valet Booth – Many are left unattended due to influx of incoming customers; implement our product line for added security

No maintenance, no installation required for the key locks, master keys or Key FOB Disabler

Virtually immobilizes all ignition keys

Assures prompt delivery of your departing customers' vehicles in a valet setting

If you have multiple garages, key coding can be the same or differently; customer preference

Key Boxes

Standard or Custom Sizes Available

Material – aluminum, steel, stainless steel

Styles – wall mount, car lift, portable, valet podium

Sizes – Based on customer requirements

Valet Parking Key Facts

Stack parking becomes more efficient, as keys are left secured within/on the vehicle

Establishing a unique, dependable way in securing your staging areas

Attendants can now, securely, leave keys in vehicles after moving them

All valet attendants are responsible for an assigned master key: Sign for it upon shift start and return it at the end of shift

Master keys are numerically stamped, upon request, for employee tracking purposes

If the master key is lost or stolen, we are able to replace the internal arbors and assign a new key code without replacing the entire lock: minimal cost to customer and security brought back into your operations

We offer an attendant belt that houses 13 valet locks with an attached spring cord that secures your master key

Standard orders ship within 5 business days

Product Applications

Key Valet applications include but are not limited to the following target areas:

- Valet Parking: Casinos, Malls, Hospitals, Restaurants, Condo Associations, Hotels, Racetracks
- Event Parking: Sporting events, banquet halls, golf outings, concerts
- Parking Garages: Corporate companies, daily commuter lots, stack parking
- Private Use: Securing any key, spare valet key
- Surf Clubs, Swim Clubs
- Bicycle Valet Parking: cable lock – visit EternaLock for details www.EternaLock.com

Key FOB Disabler

Blocking the Transponder Signal

Preventing the Vehicle from Starting

2012 Statistics

Key FOB/Smart Key

According to the crime bureau's data, the first three months of 2012 saw 531,031 instances of replaced smart keys; 277 of these vehicles were **stolen within** a **week** of the key being replaced

Key FOB Disabler Receives Outstanding Reviews

- Your Key FOB Disabler is an excellent product. It has a great design, great quality and blocks the signal for every keyless vehicle. Extremely easy to use and operationally friendly. Would highly recommend to anyone or any operation looking to secure keyless vehicles.
~Blake Gulino, Propark, Stamford, CT
- Many years ago, my car keys were stolen. So I have always made sure to 'hide' a spare key somewhere inside my car so I wouldn't be stranded again. But the new vehicle I purchased this year has a new generation keyless ignition system and a smart key fob. With these new push button start systems, there is no way to 'hide' a smart key fob inside a vehicle like this because the car "knows" the key fob is inside. So I began trying to figure out a way around that issue. That's when I discovered this ingenious product by KeyValet, the Key FOB Disabler. The disabler works perfectly and is very easy to hide, just as I had hoped. It is ideal for anyone like me with a push button ignition and smart key fob who wants the security of knowing a key is hidden in the vehicle somewhere if it is needed. Thank you so much for creating something so simple, yet so smart that it outsmarts even the smartest of smart keys!
~Jonna F., Texas
